

# Local Food Systems Community and Economic Development Logic Model

## Inputs

CEDIK Faculty and staff  
Agricultural Economics Dept. Faculty and staff  
Farmers market (farmers and market managers)  
Grocery Stores  
Local Culinary Community  
KY Department of Agriculture  
Community and regional planners

## Situation

Enhance access to local and healthy foods and to assist producers in identifying new market opportunities.

## Outputs

<u>Activities</u>	<u>Participation</u>
Market Development and support for producers	Integration across Program Areas: AG, HORT, FCS, 4H, FINE ARTS
Food Systems Training (Community Gardens and Community Education)	Action Team Members: M. Aull L. Huffman C. Hayden D. Morgeson D. Allen C. Conway L. Bowling
Adult and youth entrepreneur development	Non-Extension Partners; examples include the EKY Food Collaborative
Land use policies supportive of local food systems	

## *Assumptions/Resources*

**State Led:** Rural Grocer training, MarketReady training, Farm to School, Kentucky Proud, Entrepreneurial Communities  
**Agent Training:** Asset mapping, data training, facilitation training, market training, leadership development, SNAP ED.

## Outcomes – Impact

<u>Initial Outcomes (KOSA)</u>	<u>Intermediate Outcomes (Practice Change)</u>	<u>Long Term Outcomes (SEEC)</u>
Increased awareness among general public, increased access to "local" foods; Communities begin listening sessions to discuss their goals in local foods; local land use and other policies supportive of new food initiatives	Local food access is established; appropriate match between producers and consumers so sustained locally; Community coalitions are established to address access to local foods and utilization of local food; local food production friendly land use and other policies being adopted.	Communities sustain coalitions to address local food systems. Policy changes are discussed to increase awareness and access. The number of entrepreneurs in the community is increased due to local food systems. Strong and diverse local food systems are integrated into community development efforts.
Evaluation resources: General survey, consumer survey, flash polls, community listening sessions (if haven't yet occurred in community)		

## *National Indicators and Agent Metrics*

- Number of partners engaged
- Number of restaurants/other institutions utilizing local food
- Number of food partnerships formed
- Creation of Food System Map
